

LAX's Automated People Mover

Torys acted as counsel to Ansaldo STS, Acciona Concessions and OHL Infrastructure as the service provider to LAX Connecting Alliance, a shortlisted proponent for LAX's Automated People Mover (APM) PPP project to design, build, finance, operate and maintain an elevated, 2.25 mile-long APM, six stations and a related maintenance and storage facility at Los Angeles International Airport.

Municipality:	Los Angeles
State:	California
Country:	United States
Procurement Model:	DBFOM - Design Build Finance Operate Maintain
Government Level:	Municipal
Value:	\$4,900,000,000 USD
Client Name:	Ansaldo STS, Acciona Concessions and OHL Infrastructure
Client Role:	Shortlisted Private Partner (Subcontractor)

The elevated, 2.25 mile-long guideway will have six stations as well as pedestrian bridges to airport terminals, parking garages and fixed facilities.

The project is a complex and challenging element of the Landside Access Modernization Program (LAMP), which would create a world-class transportation system for Los Angeles International Airport (LAX). Estimated at US\$5.5 billion, LAMP would be one of the largest construction programs in Los Angeles City history.

Torys represented Ansaldo STS, Acciona Concessions and OHL Infrastructure with a team that included Tara Mackay and Josh Van Deurzen.
